

A natural tannin way to achieve better performance!

CAPRITANEX-S is a combination of natural poly phenols (rich in bio-active substance) with other natural minerals for fishes and shrimps, extremely versatile and easy to use. It protects the gut from toxins produced by vibrio parahaemolyticus and reduces the early mortality syndrome (EMS). It acts as an effective immune stimulant, prevents intestinal inflammation & maintains the integrity of intestinal barrier through anti-oxidant and anti-inflammatory activities. It improves the performance of farm fishes as well as shrimps in a significant manner.

Dosage: 1 - 2Kg per ton of feed

Package: 1/10/20 Kg Pack

- Benefits:**
- Antimicrobial, antioxidant, anti-inflammatory
 - Immune stimulator and microbiota regulator
 - Improves growth & feed efficiency
 - Prevention of intestinal inflammation & disease prevention
 - Resistance against vibrio species
