## Caprizyme P-Rich<sup>®</sup> (Thermostable Phytase)

Thermostable phytase enzyme to release the organic phosphorous from feed ingredients, enriching the bio-availability of other minerals & reducing the ANF molecules.

### Active Ingredients:

Phytase 5000 U/g or  
Phytase 10,000 U/g

### Benefits:

- \*Lower levels of inorganic phosphorus in diets
- \*Reduced excretion of phosphorous to environment and increased profitability
- \*More consistent delivery of phosphorous to the animal

**Dosage:** 100g-150 g/ton of feed for broiler & layer

**fssai**
