

CapriEnzymes

Imagine the eco-future

CAPRIZYME YMS

(Yeast culture)

Benefits:

- ▶ A rich source of B-vitamins, amino acids, and other nutrients, support poultry health & growth
- ▶ Promotes the growth of beneficial microorganisms in the digestive tract
- ▶ Breaks down anti-nutritional factors like non-starch polysaccharides (NSPs)
- ▶ Improved feed efficiency and better growth performance
- ▶ Protect cells from oxidative stress and support immune function
- ▶ Reduces feed costs and increases the yield
- ▶ Enhanced digestion and absorption reduces environmental pollution due to excreta

Composition:

Saccharomyces cerevisiae, Mannanase enzyme & Selenium

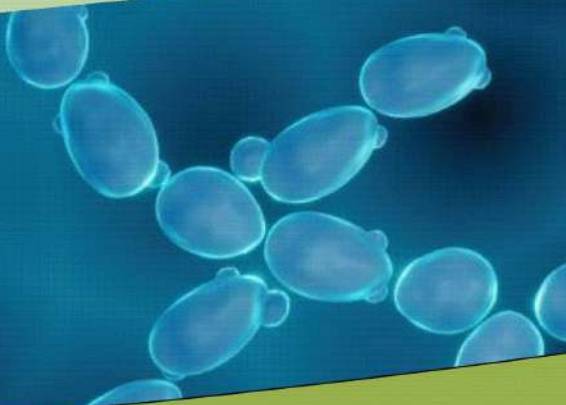

Caprizyme YMS, is a specialized feed additive designed to improve nutrient absorption & utilization from plant-based feed ingredients that leads to better growth, increased feed efficiency, and enhanced overall performance. Also contributes to maintain a balanced gut microflora, promoting a healthy digestive system & protect cells from oxidative damage & maintains robust immune defenses and overall well-being.

Dosage:

500g-1Kg per ton of feed

Packing:

500g/ 1Kg
